Tahe Styling Lab

Styling Lab is a professional finishing range designed for stylists who see styling as a creative tool that is constantly evolving. Each product delivers precise performance on its own, allowing you to create defined, long-lasting and controlled finishes. At the same time, their formulas are designed to blend with one another, expanding creative possibilities and allowing each result to be tailored to the hair, the technique and the stylist's vision.

Professional numbering system

The entire range features a three-digit numerical coding system, designed to facilitate the technical interpretation of the product. Each value is expressed on a scale of 0 to 5, where 0 is the minimum level and 5 the maximum:

1st digit indicates Fixation / 2nd digit indicates Treatment / 3rd digit indicates Shine

This system allows you to immediately visualise the product's performance and create strategic combinations with total precision.

DUAL PLEX Technology

Structural repair and visible results. Hair damage affects both the internal structure and the surface of the hair. For this reason, the entire range incorporates ***DUAL PLEX Technology***, a multi-layer repair strategy that acts from the core to the outside of the hair fibre.

Its action combines two complementary levels:

Cortex Bond Plex™, which acts on the cortex by reinforcing the internal structure, forming new bonds and reorganising the keratin matrix to improve the fibre's strength, elasticity and cohesion.

Cuticle Performance Plex™, which optimises the hair surface, reduces porosity, improves cuticle sealing and enhances the shine and uniformity of the result.

The combination of both systems allows for a balance of hold, shine and care in every finish, guaranteeing without compromising the quality of the hair fibre.

The same hairstyle can be completely transformed with a single adjustment: by changing the product, the combination or the proportion applied. More control or more movement. More definition or a natural finish.

PREPARATION

Hair Cure Detox Shampoo

Removes build-up and pollution

What it is:

A purifying pre-wash shampoo with DUAL PLEX technology.

What it does:

Deep cleanses the hair and scalp before professional treatments, removing impurities and pollution.

Directions for use:

Apply to damp hair before the treatment. Massage gently, rinse thoroughly with water and repeat the process if necessary. Proceed with the subsequent treatment.

The foundation of perfect styling:

A multi-layer repair system that acts on both the interior and surface of the hair to improve its strength, quality and finish.

Rebuilds and prepares the hair with DUAL PLEX technology for a more precise, long-lasting and controlled finish.

Sizes:

20 ml / 750 ml

Hair cure Treatment

Advanced Repair

What it is:

Professional reconstructive treatment with DUAL PLEX technology.

What it does:

It acts on the cortex and cuticle to strengthen the hair fibre, repair damage and reduce breakage by up to 95%. Its formula, containing amino acids, wheat protein, lipids and conditioning agents, restores hair from within, improving strength, shine, elasticity and resilience, even in hair damaged by chemicals or heat. It optimises hair reconstruction and enhances subsequent treatments, leaving hair more uniform, manageable and radiant.

Directions for use:

Wash the hair with Hair Cure Detox Shampoo. Remove 80–90% of moisture with a towel or hairdryer. Mix the 3 vials (No. 1, No. 2 and No. 3) in a bowl until a homogeneous mixture is obtained. Apply the mixture to the entire head of hair, dividing it into sections to ensure even distribution. Leave on for 10 to 15 minutes under a heat source. Wash again with Hair Cure Shampoo to remove the product. Apply Hair Cure Mask to the mid-lengths and ends to seal in the treatment. Blot dry with a towel and style using your preferred professional technique.

The foundation of perfect styling:

A multi-layer repair system that acts on both the interior and surface of the hair to improve its strength, quality and finish.

Rebuilds and prepares the hair with DUAL PLEX technology for a more precise, long-lasting and controlled finish.

Size:

3 x 20 ml
